

101 Reasons Why God Does Not Exist

Thomas F. Torrance is regarded as one of the foremost Reformed theologians of the second half of the twentieth century. He taught for thirty years at New College, University of Edinburgh, Scotland, until his retirement in 1979. He has written extensively, contributing more than twenty major works of theology and hundreds of articles in a variety of languages. In this book Elmer Coyle provides access to Torrance's voluminous writings. Demonstrating the profoundly trinitarian and evangelical spirit of Torrance's theology, Coyle also captures his concern to formulate a renewed theological method in the tradition of Athanasius. Coyle helps us see how, in Torrance's view and practice, a truly scientific approach must be godly in order to be accurate and faithful. This volume deepens our understanding of Jacob Böhme's texts and contexts and facilitates future research. It encompasses sections on the text-centered approach to Böhme, facets of his environment, and aspects of his influence which bring latent features of his writings to light.

A number of critics and scholars argue for the notion of a distinctly Catholic variety of imagination, not as a matter of doctrine or even of belief, but rather as an artistic sensibility. They figure the blend of intellectual, emotional, spiritual and ethical assumptions that proceed from Catholic belief constitutes a vision of reality that necessarily informs the artist's imaginative expression. The notion of a Catholic imagination, however, has lacked thematic and theological coherence. To articulate this intuition is to cross the problematic interdisciplinary borders between theology and literature; and, although scholars have developed useful methods for undertaking such interdisciplinary "border-crossings," relatively few have been devoted to a serious examination of the theological aesthetic upon which these other aesthetics might hinge. In *A Theology of Criticism*, Michael Patrick Murphy proposes a new framework to better define the concept of a Catholic imagination. He explores the many ways in which the theological work of Hans Urs von Balthasar (1905-1988) can provide the model, content, and optic for distinguishing this type of imagination from others. Since Balthasar views art and literature precisely as theologies, Murphy surveys a broad array of poetry, drama, fiction, and film and sets it against central aspects of Balthasar's theological program. In doing so, Murphy seeks to develop a theology of criticism. This interdisciplinary work recovers the legitimate place of a distinct "theological imagination" in critical theory, showing that Balthasar's voice both challenges and complements contemporary developments. Murphy also contends that postmodern interpretive methodology, with its careful critique of entrenched philosophical assumptions and reiterated codes of meaning, is not the threat to theological meaning that many fear. On the contrary, by juxtaposing postmodern critical methodologies against Balthasar's visionary theological range, a space is made available for literary critics and theologians alike. More important, the critic is provided with the tools to assess, challenge, and celebrate the theological imagination as it is depicted today.

Most people would look at Tim and Rhonda Evatt sitting in a restaurant with their two children and feel sorry for them. They would see their sixteen-year-old get out her father's fork that is bent in a ninety-degree angle and unstrap the safety belt that is placed around her father's chest as the red-headed six-year-old hops off of the footrests and up into his own chair. The general public

would most likely be unable to completely look away. Not just to see how this poor man functions with such a drastic disability, but why he and his wife and children are smiling and laughing. It is almost as shocking as when they take hands as a family and pray in public before they eat. How can they have such joy in their lives and still love God when he is so disabled? The answer is simple. It is because God still loves them. He uses them to minister to others and show them that despite a tragedy, the Lord can still bring happiness to your life.

Spiritual Information is a collection of one hundred essays that explore a portion of the vast interdisciplinary approaches to the study of science and religion. Individually and together, the essays show how the study of ourselves, our planet, and the universe helps us understand our place as spiritual beings within God's universe. The book is a tribute to Sir John Templeton and his pioneering commitment toward new research that results in "one hundredfold more spiritual information than humankind has ever possessed before." It begins with essays that reflect on Sir John's principal domains of interest and expertise: free-enterprise based finance and accelerating spiritual progress. Themes of the sections are: •Science-Religion Dialogue •Cosmology, Physics, and Astronomy •Mathematics, Musicology, and Speculation •Biological Evolution—the Human Being •Social Evolution—the Human Mind and Heart •Religion and Health •The Nature of the Divine •Theology and Philosophy •Faith Traditions "Sir John's leadership has enabled us to edge ever closer to the frontier where knowledge meets wisdom at the threshold of 'ultimate reality,'" notes the editor in the preface to this volume. As *Spiritual Information* presents an overview of how far we have come in the science and religion dialogue, it also opens windows to the vast possibilities for additional research and further advances in spiritual information.

A fun read based on one woman's authentic expressions of love toward God.

Prayer is a universal religious ritual and is offered in every language around the world to one deity or another. Simply put, prayer is talking to God or gods. And depending on the maharishi you're listening to; prayer is also God talking back. I've come to

understand that without this faith principle I could not in any way succeed at Christianity. For me there has to be the inept belief that if I believe God exists; he cannot be less qualified to speak or listen than I am. He must not only be infinitely qualified to be God; he must be infinitely wiser and sensitive toward those of us who not only believe that God hears our prayers, but that he answers them. And of all the reasons we give for praying, the need for human interaction with something or someone greater than mere mortals ranks number one for me. Prayer 101 lists a litany of reasons we as humans lift up our faith to God in prayer; and particularly Christians believers. My belief is embodied in the narratives of the Gospel writers and their recorded relationship with Christ, which unfolds how he prayed, what he prayed for, who he prayed to and under what circumstances he prayed. In this experience of shadowing the relationship between Christ and his disciples, I also see what Christ taught about prayer and its power to transform lives, even situations sometimes deemed impossible through our eyes. It is in this context of faith and its relationship to prayer that I offer Prayer 101 in the hope that the life of someone reading these few pages will be transformed into a volume of evidentiary encounters with the God who hears and answers prayer.

This book is about who God is, and because of the word of God which is included in this book. You will be blessed and learn somethings about God which you did not know. God is the beginning and the ending. God is the first and last. God is and was before nothing. What is nothing? Nothing does not exist. God is the only true God, because God is the source of all power. God is everywhere. All the time, at the same time. God know everything and God is all powerful. God is the solution and the answer to all problems and every situation regardless of the severity. Most of all God is love and He loves us all with an everlasting love. Read this book and find the answers to these six interrogatives: Who? What? When? Where? How? and Why?

This book presents a strong case for the Christian faith by using scientific evidence and philosophical reasoning. Although an abundance of Christian apologetic textbooks exist, most are not easily accessible because they offer long and scholarly treatments of subject matter that

may not appeal to lay readers. This book differs in two ways. First, it presents the case for Christianity in a friendly scholarly prose, which enables readers to plainly understand each reason to believe. Second, these reasons are concisely structured so that within minutes, readers can quickly examine each argument in light of the evidence presented. 101 Good Reasons to Believe is essential reading for theists who wish to strengthen their faith in God and for nontheists who desire to critically investigate the truth claims of the Bible. This book includes topics such as: ?astronomical evidence for the existence of God, ?evidence for creation and intelligent design, ?refutation of Darwinian evolution, ?the historicity of Jesus, ?why there is human suffering if God exists, ?the accuracy of the Bible, and ?evidence for heaven and hell. The 101 reasons presented make thought-provoking and compelling reading for scholars and non-scholars alike.

The title says it all. This book will inspire you and make you fall in love with the Trinity (the Godhead) and will fulfill your every need and give you your heart's desire. You will find the truths in God's living word, selected scripture that proves God's love for you, regardless of who you are. I'll show you that you can have a loving relationship with God your Father, Jesus your Savior, best friend, and companion, the Holy Spirit your comforter, lover, and spiritual guide. I've given you topics like God's love for you, God your Father, merciful God, the Holy Spirit, angels to help you, and more. You will find a friend who will never leave you or forsake you but will lay down his life just for you. GOD IS LOVE! Sharing in God's Presence means far more than "getting saved" and experiencing God's blessing in our lives. As believers, his presence becomes a very personal part of who we are and what we do--God actually shares himself with us! The language that we use often fails to capture the depths of God's nature penetrating ours, the fullness of his Spirit permeating our hearts, and the innermost infusion of his presence in our lives. But the truth couldn't be more intimate: "The person who is joined to the Lord is one spirit with him" (1 Corinthians 6:17)! This book is an invitation to share in God's presence by allowing God to share himself with you. God wants everyone to share in his embrace. As we accept our responsibility for prayer, ministry, and even revival, we share in the very precious dynamic of give and response that's involved in an intimate walk with Jesus Christ. For a general readership, this book is a reworking of material from the second half of the author's academic work *God's Absence and the Charismatic Presence*.

How long should a person believe in Mormonism based just on faith? In "101 Reasons to Quit Believing in the Mormon God(s)," Richard Nemelka adroitly lays out the complex issues surrounding Mormonism, Christianity, and God that have plagued him and others for decades. The most outstanding theological thinker of the twentieth century is proving to be the most pivotal theological figure of the twenty-first century as well. It is no wonder some have referred to Karl Barth as a "Father" of the Church. Karl Barth, widely acknowledged as the most influential theologian of the modern era, continues to provoke and inspire Christian theological reflection in a distinct and enduring way. His work has occasioned appreciation, critique, and rejection, but however one responds to Barth, one must reckon with him in pursuing the theological task. This volume draws together scholars whose essays exhibit work "after Barth" in engaging the doctrine of the Trinity and its related themes. Barth's thought, as evidenced amongst his most expert commentators, allows for a variety of interpretations, the details of which are being hammered out on the pages of academic journals and volumes such as this one. It is this variety of responses to and interpretations of Barth's theology that gives such vibrancy to the essays in this volume by seasoned Barth scholars and voices new to the conversation. Contributors include: Ivor J. Davidson, Bruce L. McCormack, John C. McDowell, Paul D. Molnar, Murray A. Rae, and a Foreword by John B. Webster.

Learn to Walk in Newness of Life! Two thousand years ago, the Creator of the universe died on a cross for our sins and rose from the dead. Today, He draws all people to Himself and gives eternal life to everyone who believes in Him. For those of us who have trusted in Him, the most amazing thing is that Jesus Christ now lives in our hearts. But what does it really mean that Jesus lives in our hearts? In amazing detail, *New Life in Christ Jesus* shows from the Scriptures that Jesus' presence means that we have everything we need for life and godliness: It means we are God's children, His offspring. It means we have His Divine Nature (His DNA). It means we have His life, His righteousness, and His holiness. It means He leads, guides, and directs us from inside our hearts. It means our sins are forgiven completely and forever. It

means we may walk with Him in the newness of life. Pick up New Life in Christ Jesus and learn how to take advantage of this platform God has given us for godly living. Learn to trust the Holy Spirit when He speaks to you. Learn to recognize the righteousness you possess in Christ. Learn to accept in full His forgiveness for all the shortcomings of your flesh. Learn to walk free of the law without using your liberty as a cloak for vice. And learn to resist every effort of man and spirit to move you from this course.

It's easy to dismiss your childhood and other life experiences as just that. We like using the phrase, "that's just life" when we don't know what else to attribute to our lack of connection with who and what we really want to be when we grow up. It was in this pondering and puzzling moment of my life that God began to show me piece by piece how connection to my many "just life" experiences really did matter. You were not created by accident, and nor will you find your purpose by accident. It wasn't easy sharing some of the stories of my life, but I truly want someone else to know what God has taken time to let me know. You have to be willing to share pieces of your life and begin the process of connecting. You can go from puzzled to purpose by doing just that.

Music can answer questions that often confound more discursive modes of thought. Music takes concepts that are all too familiar, reframes these concepts, and returns them to us with incisive clarity and renewed vision. Unity is one of these "all too familiar concepts," thrown around by politicians, journalists, and pastors as if we all know what it means. By turning to music, especially musical space, the relational structure of unity becomes less abstract and more tangible within our philosophy. Arnold Schoenberg, as an inherently musical thinker, is our guide in this study of unity. His reworking of musical structure, dissonance, and metaphysics transformed the tonal language and aesthetic landscape of twentieth-century music. His philosophy of compositional unity helps us to deconstruct and reconceive how unity can be understood and worked with both aesthetically and theologically. This project also critiques Schoenberg's often monadic musical metaphysic by turning to Colin Gunton's conviction that the particularity and unity at the heart of God's triune being should guide all of our theological endeavors. Throughout, music accompanies our thinking, demonstrating not only how theology can benefit the philosophy of music but also how the philosophy of music can enrich and augment theological discourse.

101 short, easy-to-read comforting reasons we love God. Written in everyday language with supporting Scripture. Written on a business trip after a blessed, moving, and fulfilling discussion between the husband and wife authors

What kind of book is the Bible? Is it a rulebook or a guidebook for moral living? Is it a history book or a book filled with fascinating (and sometimes fantastic) stories? Did humans write the Bible or did God somehow speak a perfect message that the authors transcribed? Many people have asked these questions about the nature of this beautiful, odd, comforting, disturbing book the church calls its "Holy Scripture."

Charlotte Vaughan Coyle shares her own journey to make sense of the Bible in this read-through-the-Bible-in-a-year project. She discovered that the crucial work of asking hard questions and even arguing with the Bible revealed the Scriptures to be a symphony of polyphonic voices, a work of art that paints an alternative vision of reality, a complex novel-like story unavoidably embedded in its own culture and time, and yet able to give witness to the God beyond history who has acted (and continues to act) within history. With the heart of a pastor and the passion of a preacher, Rev. Coyle invites seekers and students (both churched and un-churched) to strap on their scuba gear and join her for a deeper dive beneath the surface of this immense, colorful, mysterious world of the Bible.

Over 90 percent of all Christian churches in the United States have fewer than 200 members. While they vary in shape, size, ethnicity, and denomination, they have one thing in common: the desire to grow. So why is it that some churches fail to grow for years, while other congregations in the same community increase exponentially? The problem, says church marketing authority Richard Reising, is that most churches should not be doing promotion. Instead, they should focus on the preparation that will make members eager to invite others. In *ChurchMarketing 101®*, he demystifies basic marketing principles for the church, evaluates them against biblical principles, and illustrates how simple changes can remove roadblocks that hinder members from reaching out. Reising's simple yet insightful approach will be invaluable to pastors and ministry leaders from churches of all denominations and styles.

Do you ever wish that you knew some very basic things about God when you first committed your life to Him? This book is an exposition into how the truth and power of the Word of God can transform the lives of the people who believe in Jesus Christ. Do you know that: God is the ultimate symbol of trust and commitment to all who need to depend on someone. There is a far-reaching benefit from godliness that cannot be obtained apart from faith, because faith in God through Christ Jesus is a firm foundation, upon which we who believe can truly rest. Faith gives substance to something that does not exist physically, but can be conceived in our hearts, spoken about, and believed in. The believer cannot pursue purpose without gaining a deep and life-changing revelation of his identity in Christ Jesus. This book is worth reading. Read more. A Christian for more than 15 years, Robert Odam has studied basic Christian growth, taught Bible study classes, and designed and directed new converts classes.
