

Agricultural Science Grade 10 June Question Paper

Study & Master Agricultural Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Agricultural Sciences.

This well-established textbook provides students of food science with an authoritative and comprehensive study of cereal technology. Kent compares the merits and limitations of individual cereals as sources of food products as well as looking at the effects of processing treatments on the nutritive value of the products. The fourth edition of this classic book has been thoroughly updated with new sections including extrusion cooking and the use of cereals for animal feed.

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.

A thoroughly revised edition that encompasses new material including sections dealing with extrusion cooking and the use of cereals for animal feed. The section on industrial uses for cereals has been expanded considerably.
