The Third Edition of this text, which is a thoroughly revised and enlarged version of Prof. V.K. Goyal's book, Corporate Accounting, Second Edition, gives a clear analysis of the fundamental concepts of corporate accounting. Accounting for various types of companies comes under the sphere of corporate accounting. This book primarily deals with the preparation and presentation of accounts strictly in accordance with the provisions of the Indian Company Law. Organized into 11 chapters, this book, at the outset, presents provisions of the Indian Companies Act, 1956, SEBI's guidelines, and different types of shares and modes for issue of shares. Then it goes on to give a detailed discussion on the conditions for redemption of preference shares with

TRIZ is a brilliant toolkit for nurturing engineering creativity and innovation. This accessible, colourful and practical guide has been developed from problem-solving workshops run by Oxford Creativity, one of the world's top TRIZ training organizations started by Gadd in 1998. Gadd has successfully introduced TRIZ to many major organisations such as Airbus, Sellafield Sites, Saint-Gobain, DCA, Doosan Babcock, Kraft, Qinetiq, Trelleborg, Rolls Royce and BAE Systems, working on diverse major projects including next generation submarines, chocolate packaging, nuclear clean-up, sustainability and cost reduction. Engineering companies are increasingly recognising and acting upon the need to encourage successful, practical and systematic innovation at every stage of the engineering process including product development and design. TRIZ enables greater clarity of thought and taps into the creativity innate in all of us, transforming random, ineffective brainstorming into targeted, audited, creative sessions focussed on the problem at hand and unlocking the engineers' knowledge and genius to identify all the relevant solutions. For good design engineers and technical directors across all industries, as well as students of engineering, entrepreneurship and innovation, TRIZ for Engineers will help unlock and realise the potential of TRIZ. The individual tools are straightforward, the problem-solving process is systematic and repeatable, and the results will speak for
