We simply haven't been told or taught what does matter--or, if that question has been answered for us, the answers we've been given have not been accurate. Yet now, the author declares, the human race is receiving an invitation from Life Itself, in the form of a palpable energy shift in 2012 and beyond, to address the question directly--and people everywhere can feel it. Some sense this shift much in the way they can sense, in the sleepy hours of the morning, that it is time to wake up. Others experience frustration at how things are going right now, but they also feel a muted excitement stirring deep within, a restless readiness to respond to a soft but persistent inner voice that has lately been saying: IT DOESN'T HAVE TO BE THIS WAY. Walsch says that this inner voice is correct. One's life does not have to be a series of worrisome and challenging crises involving finances or relationship or health or family, and neither does the world at large have to be a container of constant calamity surrounding its governance and ecology and culture. In his latest book, *The Only Thing That Matters*, he offers a formula, elegant in its simplicity, that will immediately uplift the life of anyone who embraces it--and that could change the World Entire.

Writing in the cosmopolitan metropolis of Baghdad, Alfarabi (870-950) is unique in the history of premodern political philosophy for his extensive discussion of the nation, or Umma in Arabic. The term Umma may be traced back to the Qur'[?] and signifies, then and now, both the Islamic religious community as a whole and the various ethnic nations of which that community is composed, such as the Turks, Persians, and Arabs.

Examining Alfarabi's political writings as well as parts of his logical commentaries, his book on music, and other treatises, Alexander Orwin contends that the connections and tensions between ethnic and religious Ummas explored by Alfarabi in his time persist today in the ongoing political and cultural disputes among the various nationalities within Islam. According to Orwin, Alfarabi strove to recast the Islamic Umma as a community in both a religious and cultural sense, encompassing art and poetry as well as law and piety. By proposing to acknowledge and accommodate diverse Ummas rather than ignoring or suppressing them, Alfarabi anticipated the contemporary concept of "Islamic civilization," which emphasizes culture at least as much as religion. Enlisting language experts, jurists, theologians, artists, and rulers in his philosophic enterprise, Alfarabi argued for a new Umma that would be less rigid and more creative than the Muslim community as it has often been understood, and therefore less inclined to force disparate ethnic and religious communities into a single mold. Redefining the Muslim Community demonstrates how Alfarabi's judicious combination of cultural pluralism, religious flexibility, and political prudence could provide a blueprint for reducing communal strife in a region that continues to be plagued by it today.
